

REPAIR POLICY FOR INTERNAL USAGE

Priority: The customer's experience is always our top priority. Always pay close attention to the client's tone and mood to ensure they don't become overly frustrated or upset. If needed, offer alternative solutions to help find the best possible outcome — but first, confirm any available options with the team before responding.

1. Is it our product? - ask for photos in order to identify it.

How it can be identified: from photo, order number, client name/email address.

- YES:
 - Ask for the order number (if we can't find it via our side)
 - If we can not find out the order number - warranty still applies to our products.
- NO - no warranty from our side.

2. Can the client do the repair via his side?

- YES - send needed repair details from our side and **add the leather care balm.***
- NO - depending on its address offer other options below.

** We have a dedicated "Replacement Parts" listing available for all locales, accessible only via a shared link. When a customer requires repair parts, we provide them with the link along with the discount code REPAIR1. The customer then places the order. If they do not have a Shopify account, we share the global link; if they do, we send the link in the same website locale used for their original order. All special listing links can be found here: <https://timeresistance.com/products/replacement-parts>*

** Once the customer has placed the order, we do not create an invoice in Odoo if the order total is €0.00. Instead, we simply add the repair details and photos to Vaida via Odoo Log notes and attach the shipping label as usual.*

Cases where the client can repair the item themselves:

- Loose or lost screws, keys
- Zipper puller (metal puller part only)
- Lock issues (depending on the model — possible for older ones)
- Loose threads (can be carefully burned off)
- Jewelry box lid (can be gently massaged to help it stand properly when opened)
- Strap adjustments or minor fixes
- Small scratches or minor leather imperfections
- Some studs (depending on the item and placement)

!!! ALL RECEIVED PHOTOS FROM CLIENTS WITH THE DEFECTS/ISSUES NEEDS TO BE UPLOADED TO GOOGLE DRIVE > REPAIR CASES - PHOTOS > YEAR/MONTH FOLDER !!!

The Asana project for repair cases is **CS: RETURNS/REPAIRS**. There we track the cases in collaboration with the warehouse.

Papildomi klausimai dėl repair

This section is used for additional repair clarifications, such as checking whether we have the required repair part to send to the client, determining whether the repair can be done on the client's side or ours, assessing whether it is worth sending the item back for repair. All tasks created in this section should be assigned to kokybe.

** Additionally, tasks are created here when a repair part needs to be sent to a client who contacted us via Etsy or Amazon. In these cases, the shipping label should also be attached to the task.*

REPAIR

This section is for all cases where the item has reached our headquarters and is ready for the repair process, or when the client is sending the return package for repair directly to our headquarters. The task should be assigned to kokybe when the package is expected to arrive soon or has already arrived, indicating that the item is in the repair process. Once the repair is completed, Vaida will assign the task to the agent. The agent then uploads the shipping label and reassigns the task to kokybe to confirm that the repaired item is ready to be shipped back to the client.

REPAIR, ne į LT siūsta

This section tracks all tasks where we have received a tracking number from the client indicating that the return package for repair is on its way. The task should remain assigned to the agent until the tracking confirms that the package has been delivered to the warehouse. Once the delivery is confirmed, update the Status section with the warehouse location and remove the assignee from the task.

Tik patvirtinti, kad grįžo mums

This section is for cases where we send return labels to clients from our side, created via FedEx. The task should be assigned to the agent until the return package is in transit. Once the package is confirmed to be in transit, the task should be reassigned to kokybe for further tracking and processing.

FedEx gražinamos siuntos

This section is for tasks created when FedEx informs us that a package was not delivered and is being returned. The task should remain assigned to the agent, who is responsible for contacting the client to determine whether the order should be resent (possibly to an alternative address) or if the client no longer wants it. If the client does not respond within two weeks, the task should be assigned to kokybe, noting that the client either refused the package or did not respond, and the package can then be returned to stock.

REPAIR - pending/SHIPPING - pending

This section is for cases where the client needs to send us a return package for repair/exchange/replacement, but we are still waiting for a tracking number. The task should remain assigned to the agent until the tracking number is received. Once the tracking number is available, the task should be moved to either REPAIR or REPAIR – ne į LT siūsta, depending on the situation. Alternative, if it's not a repair, then to Warranty cases (ne į LT)

Warranty cases (ne į LT)

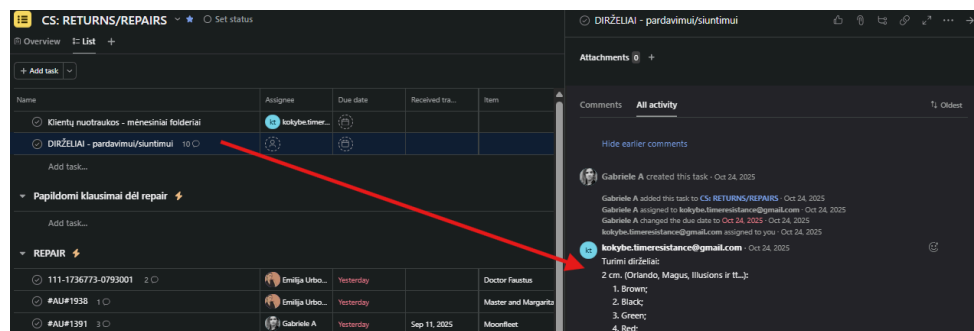

This section is for all returns/exchanges/replacements, when the client ships the item back to our warehouses.

Another Asana project - **CS: Returns with incomplete address**

This project is for cases where the client provides a tracking number, but it does not show correct delivery details, or the client used an incomplete address. For Australia specifically, this includes cases where the client simply left the package at the warehouse without using a shipping service.

Cases regarding the damaged/missing leather strap

Sometimes, the client might receive the bag without the strap, or contact us regarding the broken one. In this case, in the Asana's CS: RETURNS/REPAIRS we have the task on the top: **DIRŽELIAI - pardavimui/siuntimui**:

Use this task to check if we have the extra leather strap that we can send to the client. If not sure, just ask for kolybe in the same task. That way, the information will be visible to everyone.

When sending the leather strap for the client, we have the listing on each locale -

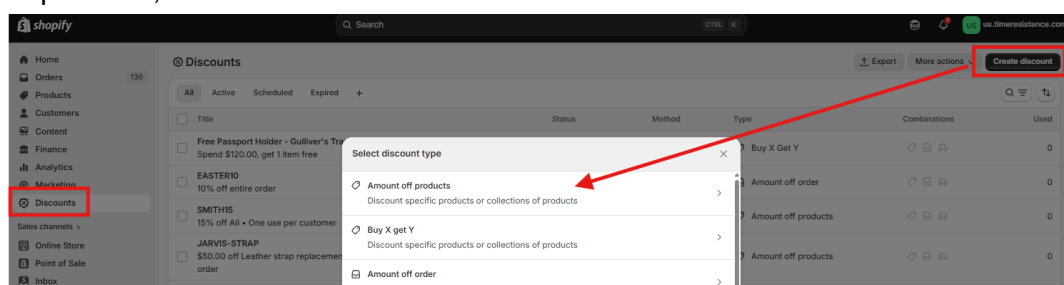

<https://timeresistance.com/products/leather-strap-replacement>

The listing is visible to everyone, however we can only fulfill the order when it's placed, only if the client contacted us or left a note with the bag's model and color in order to check if we have the available strap for shipping.

If the client was missing or the strap broke, we create a custom discount for one time in order for the client to place the order free of charge. Always use this text format for discount: CLIENT NAME - STRAP.

The discount code needs to be created at the same locale where the original order was placed, if the order can not be located within Shopify, or was done via Etsy/Amazon - use Global locale.

In Shopify - choose the correct locale, and go to Discounts > Create discount here > use the option Amount off products, here:

Use the same settings for the discount code as shown here. The Discount value section must have specify product - Leather strap replacement, so that the discount applies only to thai listing:

The screenshot shows the configuration page for a discount code named "JARVIS-STRAP". The interface is divided into several sections:

- Amount off products:** The "Discount code" field contains "JARVIS-STRAP". A note below states: "Customers must enter this code at checkout."
- Discount value:** The "Fixed amount" is set to "\$ 50.00". Under "Applies to", "Specific products" is selected. A search bar shows "Leather strap replacement" with a product image and a close button. The "Once Per Order" checkbox is checked, with a note: "If not selected, \$50.00 will be taken off each eligible item in an order."
- Eligibility:** The "Available on all sales channels" checkbox is checked.
- Right sidebar:** Shows the discount is "Active". It lists details: "All customers", "For Online Store", "\$50.00 off Leather strap replacement", "Applies once per order", "No minimum purchase requirement", "Limit of 1 use, one per customer", "Can't combine with other discounts", and "Active from Feb 17 to Mar 17". It also shows "Performance" with "0 used" and a link to "View the sales by discount report".

Make sure that Maximum discount uses and an expiration date (1 month) are set up as well:

The screenshot shows the "Maximum discount uses" and "Active dates" configuration sections:

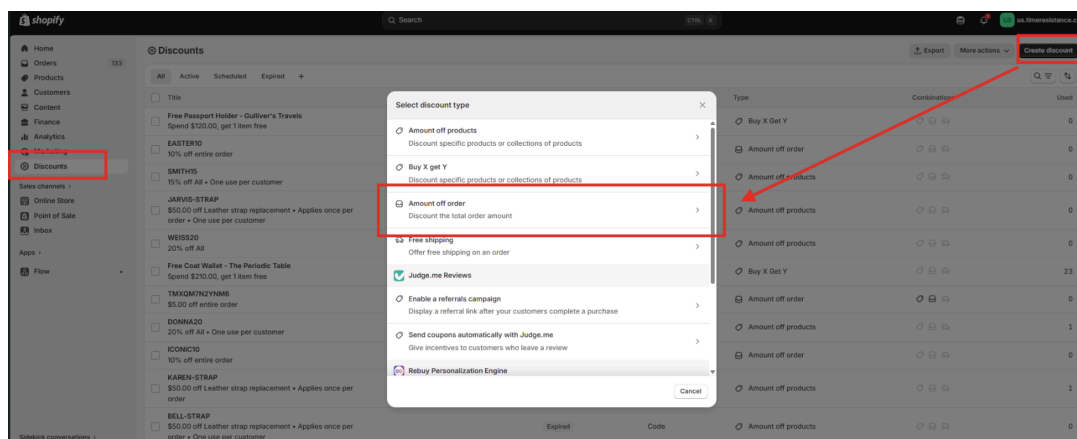

- Maximum discount uses:** The "Limit number of times this discount can be used in total" is set to "1". The "Limit to one use per customer" checkbox is checked.
- Combinations:** The checkboxes for "Product discounts", "Order discounts", and "Shipping discounts" are all unchecked.
- Active dates:** The "Start date" is "2026-02-17" and the "Start time (EET)" is "1:31 PM". The "Set end date" checkbox is checked. The "End date" is "2026-03-17" and the "End time (EET)" is "11:59 PM".

WARRANTY DISCOUNTS

Warranty discount code format: **ORDER NR - WARRANTY** → **#US#1111 - WARRANTY**

Go to the Shopify needed locale > Discounts > Create discount > Amount off order:

** the discount code will be valid only for that locale*

Make sure to correct edit and fill these options below:

We create these types of discounts, when the clients choose this option instead of the repair or replacement.

**** IF THE CLIENT WANTS TO USE ADDITIONAL 10% OFF DISCOUNT, HE WILL BE ABLE TO USE ONLY ITALY10 DISCOUNT CODE ****

EUROPEAN UNION

How much the client spend on the item in question for the repair:

- Up to 150 eur for the item:
 - UNDER 1 YEAR: Replacement - no need for return (*check the stock first*)
 - Repair at our headquarters (*generate the FedEx/easyship return label*)
 - Warranty discount - for the same amount spent on the item
- Over 150 eur for the item:
 - Order placed less than 3 months ago:
 - Repair at our headquarters (*generate the FedEx/easyship return label*)
 - Replacement - check the stock, the new item is sent once the return item is in transit. For the return - *generate the FedEx/easyship return label*
 - Order placed over 3 months ago:
 - Repair at our headquarters (*generate the FedEx/easyship return label*)
 - Warranty discount - 50% amount of the item

UK

How much the client spend on the item in question for the repair:

- Up to 130 GDB for the item:
 - Order placed less than 1 year ago:
 - Warranty discount - for the same amount spent on the item.
 - Replacement - no need for return (*check the stock before suggesting it*)
 - Order placed over 1 year ago:
 - Warranty discount: 80% / 50% (over 2 years) amount spent on the item.
 - Repair at our headquarters (it can take 2 months, *generate the easyship return label*)
- Over 130 GDB for the item:
 - Order placed less than 6 months ago:
 - Replacement - check the stock/other colors, the new item is sent once the return item is in transit. For the return - *generate the easyship return label*
 - If we don't have the item in stock - warranty discount for the same amount
 - Order placed over 6 months ago:
 - Repair at our headquarters (it can take 2 months, *generate the easyship return label*)
 - Warranty discount - 80% / 50% (more than 1 years) amount of the item.

For both UK and EU orders suggest the repair option if the purchase is not recent. In such cases, it is preferable to repair the item rather than send a replacement, as this is the most appropriate and efficient solution.

USA

How much the client spend on the item in question for the repair:

- Up to 150 USD for the item:
 - Order placed less than 1 year ago:
 - Warranty discount - for the same amount spent on the item.
 - Replacement - no need for return (*check the stock before suggesting it*)
 - Order placed 1 year ago:
 - Warranty discount - 80% / 50% (over 2 years) amount spent on the item.
 - Repair at our headquarters (it can take 6 months, *generate the easyship return label*)
- Over 150 USD for the item:
 - Order placed less than 6 months ago:
 - Replacement - check the stock/other colors and the new item is sent once the return item is in transit. For the return - generate via LOOP return label (check if its worth returning)
 - Warranty discount for the same amount, if we don't have the item in stock
 - Order placed over 6 months ago:
 - Warranty discount - 80% / 50% (more than 1 year) amount of the item.
 - Repair at our headquarters (it can take 6 months, *generate the easyship return label*)

CANADA

How much the client spend on the item in question for the repair:

- Up to 250 CAD for the item:
 - Order placed less than 1 year ago:
 - Warranty discount - for the same amount spent on the item.
 - Replacement - no need for return (*check the stock before suggesting it*)
 - Order placed 1 year ago:
 - Warranty discount - 80% / 50% (over 2 years) amount spent on the item.
 - Repair at our headquarters (it can take around 8 months)
- Over 250 CAD for the item:
 - Order placed less than 6 months ago:
 - Replacement - check the stock/other colors and the new item is sent once the return item is in transit. For the return - generate via LOOP return label (check if its worth returning)
 - Warranty discount for the same amount, if we don't have the item in stock
 - Order placed over 6 months ago:
 - Warranty discount - 80% / 50% (over 2 years) amount of the item
 - Repair at our headquarters (it can take around 8 months)

AUSTRALIA

How much the client spend on the item in question for the repair:

- Up to 270 AUD for the item:
 - Order placed less than 1 year ago:
 - Warranty discount - for the same amount spent on the item.
 - Replacement - no need for return (*check the stock before suggesting it*)
 - Order placed over 1 year ago:
 - Warranty discount - 80% / 50% (over 2 years) amount spent on the item.
 - Repair at our headquarters (it can take around 8 months)
- Over 270 AUD for the item:
 - Order placed less than 6 months ago:
 - Replacement - check the stock/other colors and the new item is sent once the return item is in transit. For the return - *generate the FedEx/easyship return label* (check if its worth returning)
 - Warranty discount for the same amount, if we don't have the item in stock
 - Order placed over 6 months ago:
 - Warranty discount - 80% / 50% (over 1 year) amount of the item.
 - Repair at our headquarters (mention that it can take around 8 months)

For US, CA, and AU orders, repairs can take longer due to international shipping times. Because of this, the **priority should be to offer alternative solutions first when possible.**

** If a client asks why the repair process takes so long, politely explain that the extended timeframe is mainly due to shipping logistics. To ensure the repair is carried out correctly and meets our quality standards, all repairs are performed at our headquarters. Additionally, we do not ship individual items separately for repair, which can add to the overall timeline.*

GLOBAL

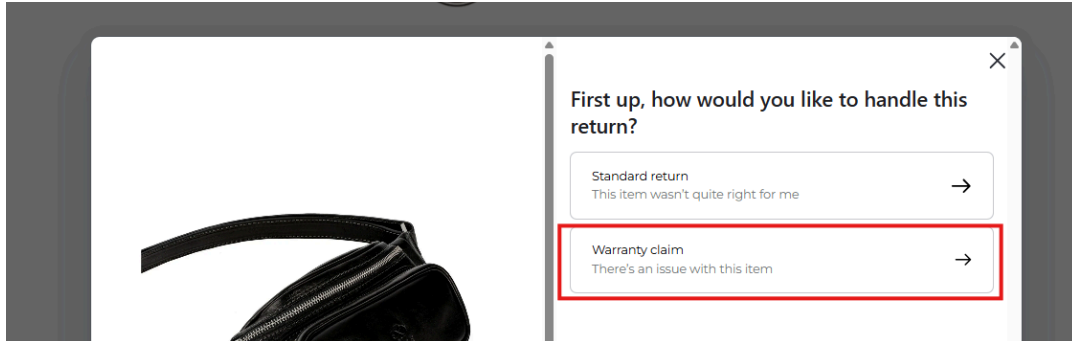

You should evaluate both how long the client has owned the item and the extent of the damage before proposing a solution.

- Start by offering a Warranty discount valued at up to 80% of the item's price, depending on the situation.
- If the customer is not satisfied with this option, you may then offer a partial refund, also up to 80% of the item's value, based on the specific circumstances.
- As the return shipping cost in most cases are too high, we don't ask the clients to send it back to us.

Important: Avoid offering the highest possible amount right away — start lower and adjust based on the discussion and the client's response.

REPLACEMENT FOR UK, US, CA ORDERS

In these cases, clients (*if needed it can be done via our side as well*) can fill the warranty claim via our website > Initiate Return section. When filling the claim, if they are still eligible they can choose the warranty option and ask for the replacements:

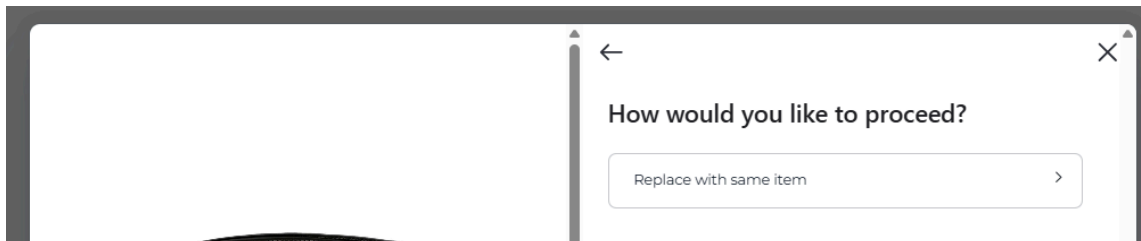

First up, how would you like to handle this return?

Standard return
This item wasn't quite right for me →

Warranty claim
There's an issue with this item →

Once the client answers the questions, there will be an option to Replace with the same item:

How would you like to proceed?

Replace with same item >

Once it is filled, we need to manually check the warranty claim via the LOOP > Returns > Warranty processing and manually check and approve the return claim. Once it's approved, the return page will be active with the return label and packing slip:

Your return has been submitted

Order #US#11181

Your label is ready to print

Use the link below to print your label and attach it to the top of the package, then drop it off at any USPS location by March 26, 2026.

[Print return label](#) [Generate packing slip](#)

A link to these instructions has been emailed to kevinjpratt@hotmail.com.

How to ship your item(s)

- Securely pack items. If available, please use original packaging.
- Attach your return label to the package and include the packing slip inside the box.
- Drop off the package within 28 days to your nearest carrier location.
- We will issue a full refund once we have received and processed the returned item.

Go green with your return

Reuse the original packaging from your order to decrease your carbon footprint!

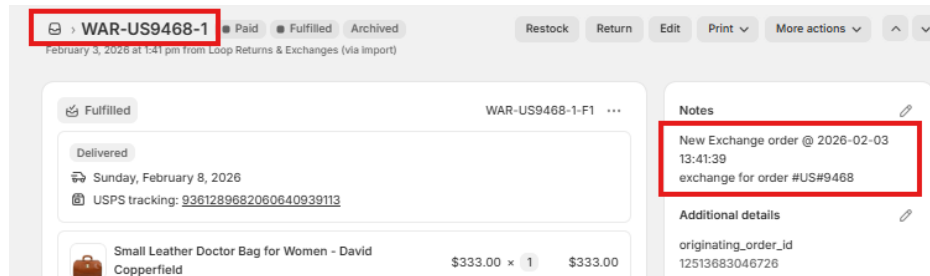

Return summary

Return credits (1) (US\$386.37)

	Large Leather Briefcase - The Firm Black	US\$495.00 US\$364.50
Credit subtotal		US\$364.50
Tax credit		US\$21.87
Purchasing (1)		US\$386.37
	Large Leather Briefcase - The Firm Black	US\$364.50
Purchase subtotal		US\$364.50
Tax		US\$21.87

Total US\$0.00

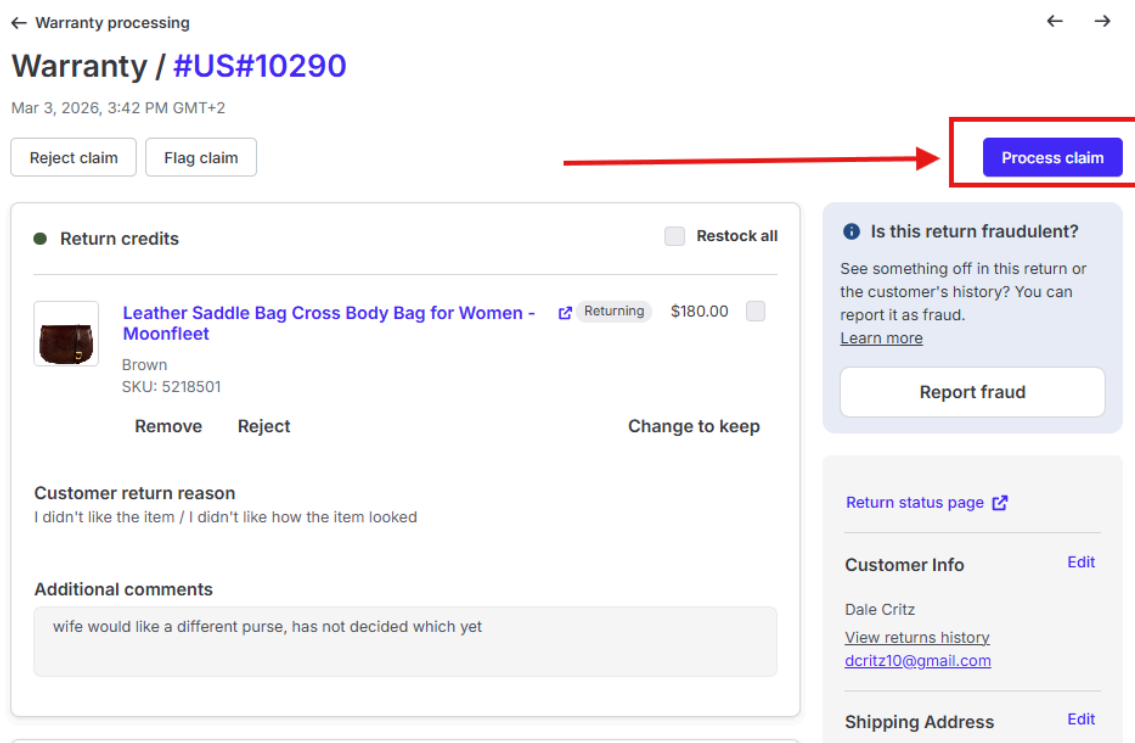

Once the client returns the item back to us with the return label, the Loop automatically will create new order for the replacement with the format:

This order needs to be fulfilled as usual. If it's sent from our warehouse, add the photos of the issue if the client had a complaint to the Vaida via Odoo > Log notes.

If the client didn't contact us, but fill the warranty form fully - with explanation and photos of the issue, we can process the exchange without contacting him additionally.

IMPORTANT NOTE: Never use the option - Process claim via Loop here:

RETURN LABELS FOR THE REPAIRS

For the EU countries, we can use FedEx, to generate return labels. For all these shipments we use Connect Plus services.

In FedEx go to CREATE SHIPMENT and choose the option to Return shipment:

The screenshot shows the FedEx Ship Manager interface. At the top, there's a navigation bar with 'FedEx' logo and various menu items like 'Shipping', 'Tracking', 'Design & Print', 'Locations', and 'Support'. Below this, the 'Return shipment' dropdown menu is highlighted with a red box. To the left, the 'CREATE SHIPMENT' button is also highlighted with a red box. The main area shows 'Deliver to' information for 'Arturas Kanapakis, Baltic Synergy UAB - RAMUCIU K, Lithuania' and a 'Return service' dropdown menu.

Fill the details according to the client's details and the order/item he will return.

Make sure to fill the RMA NO. option in Return options - use the order number and the reason for the return - REPAIR/RETURN/EXCHANGE:

The screenshot shows the 'Return options' section in the FedEx Ship Manager interface. It includes a 'RETURN LABEL TYPE' dropdown menu set to 'Print return label', an 'RMA NO.' field with the value '#EU#6125 repair', and an 'Include return instructions' checkbox.

If you need to create the return label outside the EU, we use Easyship.

Go to Shipments > Create:

The screenshot shows the Easyship interface. The 'Shipments' section is active, and the 'CREATE' button is highlighted with a red arrow. The interface includes a sidebar with navigation options like 'Analytics', 'Get a Quote', 'Shipments', and 'Pickups'. The main area shows a 'Have a barcode scanner?' message and a 'MERGE SHIPMENTS' button.

First, "Ship from existing address" - mark "No". Enter the first client's details and then use the closest warehouse address for the client's location. For email address where to Ship To - use our care@timeresistance.com. For the phone number use '-'. Press "Shipment info"

The screenshot shows the 'Receiver Information' form in the Easyship interface. The form is divided into two main sections: 'Ship From' and 'Ship To'. The 'Ship From' section has a 'Ship From' dropdown menu set to 'An existing address' (highlighted with a red box). The 'Ship To' section includes fields for 'Address Line 1', 'Address Line 2 (optional)', 'Country' (set to 'Lithuania'), 'Postal Code', 'State/Province (optional)', and 'City'. The 'Receiver Name' field is also highlighted with a red box. The form includes a 'SHIPMENT INFO' button at the top right and a 'Hi, Need any help?' chat bubble at the bottom right.

Fill out shipment information. and press “Choose courier”

HOW TO SEND A REPLACEMENT

We go to the original customer order and add a new product to Add product, which we are sending as a replacement:

The screenshot shows the SAP Sales Order #EU#2456. The 'Add a product' button is highlighted with a red arrow. The order details include Customer: Westerholm, Order Date: 02/11/2025, and Invoice Address: Westerholm, None Westerholm. The order lines table shows the following items:

Order Lines	Description	Quantity	Delivered	Invoiced	UnitM	Unit Price	Taxes	Disc%	Tax excl.
Walden	(3228011) Walden (Red)	1.00	1.00	1.00	Units	160.0000	(25.5% B2C Finland VAT)	0.00	127.49 €
(shopifydiscountproduct) Discount Product	Discount for Walden	1.00	0.00	1.00	Units	-16.0000	(25.5% B2C Finland VAT)	0.00	-12.75 €
Four Post Midnight	(3238011) Four Post Midnight (Green)	1.00	1.00	1.00	Units	90.0000	(25.5% B2C Finland VAT)	0.00	71.71 €
(shopifydiscountproduct) Discount Product	Discount for Four Post Midnight	1.00	0.00	1.00	Units	-9.0000	(25.5% B2C Finland VAT)	0.00	-7.17 €
(1111111) Laser Engraving Service	(1111111) Laser Engraving Service	1.00	1.00	0.00	Units	0.0000	(25.5% B2C Finland VAT)	0.00	0.00 €

The total amount is 225.00 €.

When we add a new product, we click on the cloud to save the new invoice:

The screenshot shows the SAP Sales Order #EU#2456. The 'Save' button is highlighted with a red arrow. The order details include Customer: Westerholm, Order Date: 02/11/2025, and Invoice Address: Westerholm, None Westerholm. The order lines table shows the following items:

Order Lines	Description	Quantity	Delivered	Invoiced	UnitM	Unit Price	Taxes	Disc%	Tax excl.
Walden	(3228011) Walden (Red)	1.00	1.00	1.00	Units	160.0000	(25.5% B2C Finland VAT)	0.00	127.49 €
(shopifydiscountproduct) Discount Product	Discount for Walden	1.00	0.00	1.00	Units	-16.0000	(25.5% B2C Finland VAT)	0.00	-12.75 €

WH/PAK/09835	WH/Stock	WH/Packing Zone	Westerholm, None Westerholm		#EU#2456		Cancelled	No records
WH/OUT/09741	WH/Output	Partners/Customer	Westerholm, None Westerholm		#EU#2456		Done	No records
WH/PAK/09736	WH/Packing Zone	WH/Output	Westerholm, None Westerholm		#EU#2456		Done	No records
WH/PAK/09786	WH/Stock	WH/Packing Zone	Westerholm, None Westerholm		#EU#2456		Done	No records

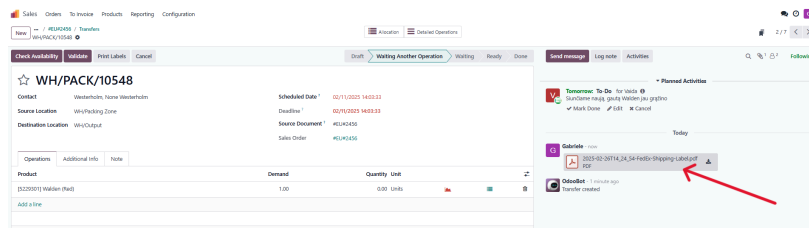

Through Activities, we add a message to Vaida regarding the order:

The screenshot shows the SAP Activities table. The 'Schedule Activity' dialog box is open, showing the following details:

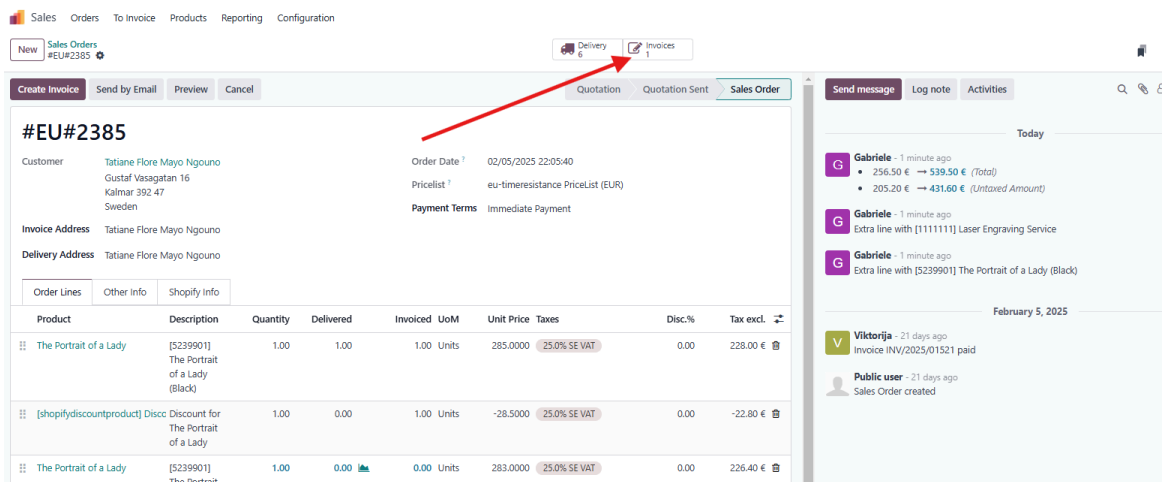

- Activity Type: To-do
- Summary: sap: discuss proposal
- Scheduled Date: 02/11/2025 14:03:33
- Assigned to: Vaida
- Due Date: 02/06/2025

The dialog box has buttons for 'Schedule', 'Schedule & Mark as Done', 'Done & Schedule Next', and 'Cancel'.

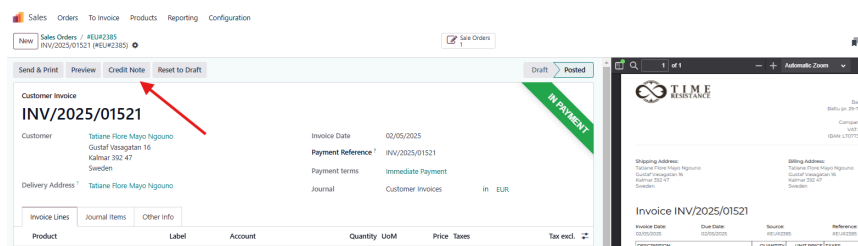

And we attach the sticker with which the replacement will be sent:

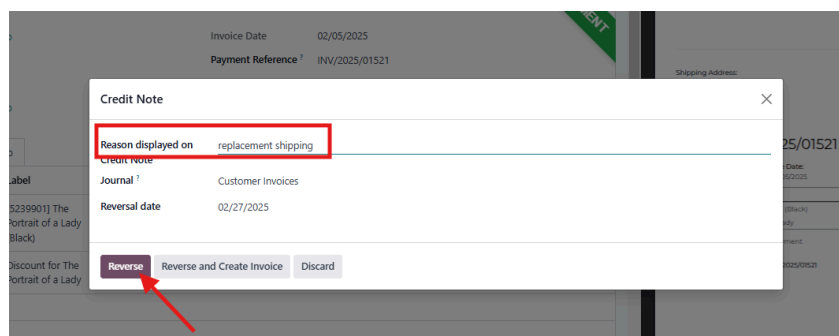

If we need to refund the shipping fee to the customer, we need to get a receipt from them with the amount paid (the customer must use standard shipping). First, we find the order in Odoo and to make a partial refund, we go to Invoices:

We select Credit Note:

We enter the reason for the refund - replacement shipping and click Reverse:

We change the invoice amount to match the shipping amount paid by the customer, check the amount in Total and click Confirm:

HOW TO CREATE NEW ORDER VIA ODOO

If we need to write off a new item to bring it to the office shelf or we need to ship something additional without the original customer order, we follow these steps to have the warehouse move and prepare the product for us.

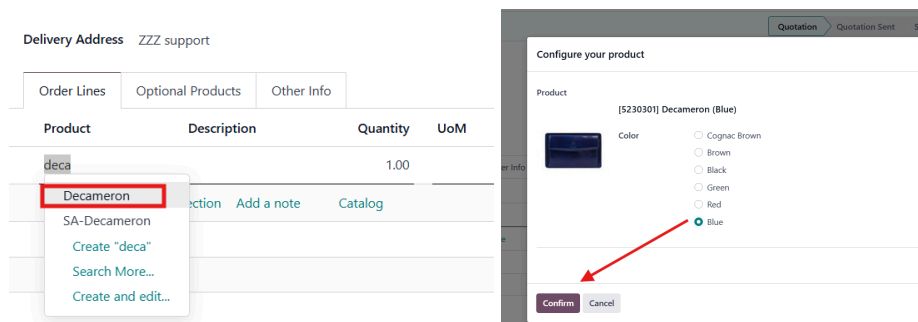

We go to Sales > Orders > Orders > New:

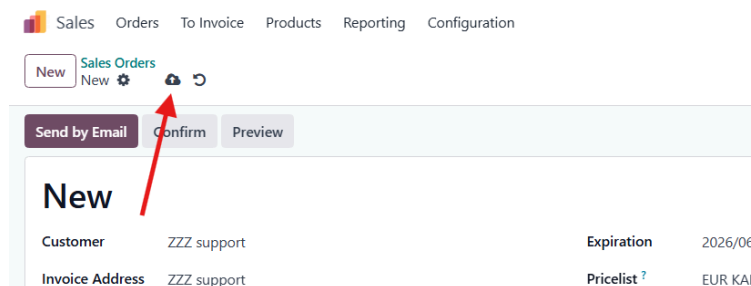

At Customer, we always find an existing customer > **ZZZ support** - we do not create new customers in any way:

We add the selected item - here you cannot create new products either, but must choose from existing options. You can also use the SKU code to search:

Since there is no payment for the product, we click on the bubble and confirm to create an order for the store:

When the Delivery zone appears, we go to the WH/Packing Zone and leave Vaida an activities note explaining why the item was written off and what to do with it next:
